

TDI Capstone Project Proposal

UNIT VATANDOST

Motivation

- ▶ Humans are suffering from conflicts and wars worldwide
- ▶ Peace brings prosperity
- ▶ Economic development
- ▶ Flow of investment and trade

The Project Goal

- Conflicts and wars seem to never end in the world we're living in. This project is to perform an exploratory data analysis and visualization on the dataset provided by The Quality of Governments Institute to explore the relationship between some select government democracy qualities and conflict intensity in any given country. The analysis reveals a strong relationship between those democracy qualities and conflict intensity which helps explain why conflict is very common in some particular regions.

Who is the end user for this project? Is someone willing to pay for a solution?

- ▶ Public Policy consulting firms
- ▶ Governments
- ▶ Think tanks
- ▶ Multinational businesses seeking expanding their market

► The App

How Do a Government's Democracy Qualities Influence Internal Conflicts in a Country?

Conflicts and wars seem to never end in the world we're living in. This project is to perform an exploratory data analysis and visualization on the dataset provided by The Quality of Governments Institute to explore the relationship between some select government democracy qualities and conflict intensity in any given country. The analysis reveals a strong relationship between those democracy qualities and conflict intensity which helps explain why conflict is very common in some particular regions.

Enter a Country:

Albania

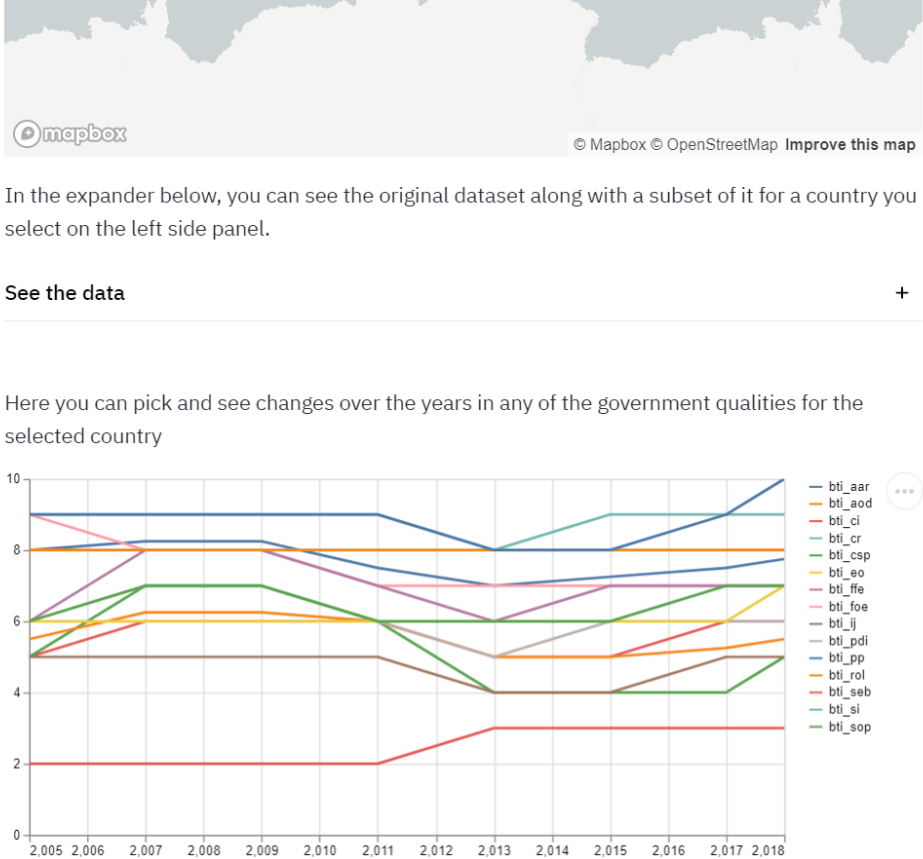

☐ Conflict Intensity
☐ Socio-economic Barriers
☐ State Identity
☐ Separation of Powers
